

# TRAIN HITS AUTO, ONE DEAD, 23 ARE HURT

## X-SOLDIER ARRESTED FOR TAOS MURDER

Pablo Rivera, Who Has  
Been Here Since  
Thursday, Is Being  
Held

Pablo Rivera, ex-soldier, who was taking a training course in rehabilitation school of the same bureau since Thursday, was arrested early this morning by Sheriff Tony Ortiz following receipt of a telegram from the FBI. The telegram said that Rivera was wanted on a murder charge. No details were given in the telegram, it is believed by authorities here that he is wanted in connection with the murder of J. A. Cordova, supposed to have occurred in the mountains near Taos in Taos county, late Tuesday evening.

Rivera's body was found today, with snow on the ground. It is believed that he was killed before the snowfall. He found with a bullet hole through his neck and with his skull crushed.

When questioned this morning, he admitted that he had been at the time of the alleged killing but denied any knowledge of the murderer. He said he is in Taos and came to Albuquerque yesterday to enter the rehabilitation school.

Rivera was in the medical corps stockwell camp in California for months during the war. He is years of age, and has no living relatives other than an uncle and sister in Taos. He says that he is being watched on a farm near Taos, asking him to come to the man. He is expected to be arraigned tonight or tomorrow.

resident Resting  
In New Jersey

AMERICAN, N. J., May 13.—President and Mrs. Harding today are spending a week end rest at the Bon View Golf club here after an automobile trip from Washington yesterday and the president's appearance at the convention of the men's republican club of New Jersey, and the women's convention in Atlantic City last night.

Secretary and Mrs. Weeks and Attorney General Daugherty have arrived and completed the official work to which Senator Edge is assigned.

Arlington: Fair tonight and Sunday; warmer in south central portion tonight.

Forecast for Next Week

WASHINGTON, May 13.—Weather outlook for the week beginning Monday: Rocky Mountain and Plateau regions generally fair and moderate temperatures.

## BOND BUYERS BEWARE!

A savage personal attack upon Judge W. W. McClellan appeared on the first page of the Journal this morning. The reason for the attack appears to have been that Judge McClellan, who bought two of the Journal bonds during their sale to the public last year by Mr. Magee, wearied of waiting for the delivery of the securities for which he had paid \$500, and brought a suit in court to recover his money.

The attack on Judge McClellan also appears to have been in the nature of an additional reason for delay in delivering the Journal bonds to those who bought and paid for them—the reason advanced, apparently, being the none too thinly veiled threat that any other bond buyer who might become impatient over the non-delivery of the bonds and venture to seek redress in court under the laws made and provided in such cases, may expect the same kind of verbal assault and battery on the front page of the Journal.

This appears to be quite as valid and satisfying a reason for the non-delivery of the Journal bonds as others that have been advanced in the past in considerable number and variety.

## Taylor's Personal Effects to Be Sold at Auction

JAMES ANGELIER, May 13.—The personal effects of William Edmund Taylor, film director who was murdered here February 1, will be sold at public auction by Ralph B. Cameron's committee to an indictment charging the Arizona senator with perjury.

These effects include two automobiles, one valued at \$10,000, a piano, a phonograph, clothing, Taylor's jewelry, will be turned over to his daughter Ethel Davis Tanner, now in New York. This includes a jacket containing the photograph of Mabel Normand motion picture actress, who was his close friend and one of the last persons known to have seen him alive. The jacket was Miss Normand's gift to Taylor.

## Japan Will Not Make a Separate Treaty With Russia

TOkyo, May 13.—By the Associated Press—Japan has no intention at present of negotiating a separate treaty with Russia, it was declared at the foreign office today.

## Probe of Increase In Gasoline Price Asked in Senate

WASHINGTON, May 13.—Senate investigation of the recent increase in the price of gasoline is proposed in a resolution introduced today by Senator Frank J. Murphy, Democrat of Tennessee. Prompt action on it by the senate was asked but it went over pending determination whether a similar resolution was pending.

## School Contracts Will Be Awarded By Board Tonight

A second meeting of the board of education will be held at the high school tonight at 7:30 o'clock to go over the bids which are submitted and opened at the meeting held last night. There are bids in for the buildings, most of which are for subcontracts for a portion of the work to be done, or combination of subcontracts.

City superintendent of schools John Milne is compiling and tabulating the necessary bills to determine the definite date can be had tonight, and the contracts set for the school building program this summer.

## BREAK UP OF GENOA CONFERENCE SEEMS APPARENT

## French and British Po- sitions Cannot Be Reconciled

GENOA, May 13.—On the result of the meeting of the economic conference's sub-commission on Russian affairs today the situation became so critical that it seemed doubtful whether the British and French positions could be reconciled.

M. Barthou, head of the French delegation, declared at the meeting of the sub-commission that France would never consent to having mixed commissions of which the Russian served as commissioners to Russian credits, debts and the treatment of foreign property nationalized in Russia.

After the adjournment of the meeting which was taken at 1:15 p. m. until 5 o'clock, the British delegation announced that "serious though friendly" discussion had occurred.

## CAMERON MUST STAND TRIAL ON PERJURY CHARGE

## Senator's Demurra to Be Overruled, Court Hints

PHOENIX, May 13.—Federal Judge W. C. Van Fleet of California, sitting in United States district court here, today indicted Senator Ralph B. Cameron's committee to an indictment charging the Arizona senator with perjury.

## STATION AGENTS MEET ON MAY 15

## May Combine With Other Railway Organizations

MINNEAPOLIS, Minn., May 13.—The future attitude of the Order of Railway Station Agents toward decisions of the United States Railroad Labor Board and the reorganization of the order are two important questions expected to come before annual convention of the agents' body which opens here May 15.

It was indicated that the organization might take some sort of action taken at the convention with one or two other organizations of agents, telegraphers and clerks, thus effecting a combined membership of 12,000. The present membership is 11,000.

The gathering may be the last convention of the order under its present name, as the delegates are considering a proposal to change to the American Association of Railway Agents.

The adoption of a new constitution in the process of reorganization would bring up the question it was stated, of continuing the clause of the present constitution which provides that members of the order shall abide by decisions of the United States Railroad Labor Board. This clause was adopted at the convention of the order two years ago, within a month after the board was created.

Since then, according to officials of the order, criticism of the board has developed among mem-

bers who have felt it was stated,

that the board had not given due consideration to the agents, and that it denies "the constitutional right of agents who have telegraphers to perform to legislate for themselves."

Consideration also will be given

at the convention, it was stated,

to plans for "impressing upon the public the importance of bids,"

and the definite date can be had tonight, and the contracts set for the school building program this summer.

A second meeting of the board of education will be held at the high school tonight at 7:30 o'clock to go over the bids which are submitted and opened at the meeting held last night. There are bids in for the buildings, most of which are for subcontracts for a portion of the work to be done, or combination of subcontracts.
